

## Low Noise Amplifier ERZ-LNA-0200-1800-18-5.5

#### ERZ-LNA-0200-1800-18-5.5

The ERZ-LNA-0200-1800-18-5.5 is a Low Noise Amplifier providing a gain of 18 dB with a noise figure of 3 dB. The compact size and modularity makes it ideal for a wide range of applications.

#### Main Features:

- Frequency Range: 2 to 18 GHz.
- Typical values: Gain 18 dB, NF 3 dB
- RF connectors (I/O): SMA
- Solder filtered pins for DC connection
- Several mounting options
- Gold platted compact aluminum housing
- Hi-reliability and dedicated screening/ environmental tests available under request

#### Typical applications:

- Industrial / Laboratory
- Satcom / Telecom
- Space / Aerospace / Military

| Parameter           | Value             |       |       | Units |
|---------------------|-------------------|-------|-------|-------|
|                     | Min               | Тур   | Max   |       |
| Frequency           | 2                 | -     | 18    | GHz   |
| Output Power (P1dB) | 18                | 20    | 22    | dBm   |
| Gain                | 16                | 18    | 20    | dB    |
| Noise Figure        | 2                 | 3     | 4.5   | dB    |
| VSWR input          | 1.0:1             | 1.3:1 | 1.8:1 | -     |
| VSWR output         | 1.0:1             | 1.5:1 | 2.1:1 | -     |
| DC Voltage          | 10                | 12    | 14    | V     |
| Power Consumption   | -                 | 2     | -     | W     |
| Connectors          | SMA Female IN/OUT |       |       | -     |

Performance

Specifications at a case temperature of 25°C

ERZ-LNA-0200-1800-18-5.5

#### Output Power at 1 dB Compression

Figure 1 shows output power at 1dB compression measurement as a function of frequency at room temperature (25°C).

#### Small Signal Gain

Figure 2 shows the small signal gain measurement as a function of frequency at room temperature ( $25^{\circ}$ C).

#### Absolute Maximum Ratings

| Condition                       | Value        |
|---------------------------------|--------------|
| DC Voltage                      | 14 VDC       |
| Maximum Input Power (CW)        | 20 dBm       |
| Operation temperature (at case) | -54 to 85°C  |
| Storage temperature             | -55 to 125°C |

- Stress above these ratings may cause permanent damage to the device.
- It is final user responsibility to maintain the amplifier within the specified ranges.

#### **Measurements Conditions**

All measurements provided in this report were performed at the following conditions:

| Condition   | Value                           |  |
|---|---------------------------------|--|
| Temperature (DUT ON)  | <b>-54⁰C</b> , 25°C, 85°C ± 1°C |  |
| Humidity  | 44% ± 10%                       |  |
| DUT Warm up time  | 30 min                          |  |
| DUT minimum operation time                                  | 24 hours                        |  |
| Test equipment warm up time                                 | 2 hours                         |  |
| Additional temperature cycles in climatic chamber (DUT OFF) | -40°C to 85°C                   |  |

#### **Environmental Specifications (By Design)**

| Operating Temperature: | -54 to +85 °C      | (MIL-STD-810F, method 520.2) |
|------------------------|--------------------|------------------------------|
| Storage Temperature:   | -55 to 125 °C      | (MIL-STD-810F, method 520.2) |
| Vibration:             | 8g rms             | (MIL-STD-810F, method 514.5) |
| Shock:                 | 20g,11ms,saw-tooth | (MIL-STD-810F, method 516.5) |
| Acceleration:          | 15g                | (MIL-STD-810F, method 513.5) |

#### **RoHS & REACH Compliance**

This part is compliant with EU 2011/65/UE RoHS (Restrictions on the Use of Certain Hazardous Substances in Electrical and Electronic Equipment) and REACH (Registration, Evaluation, Authorization and restriction of Chemical substances) directives.

#### **Mechanics and Housing**

Tel: +34 942 29 13 42

ERZ-LNA-0200-1800-18-5.5

#### Documentation and Test Reports

All modules are at least delivered with: Electrical Test Report, Certificate of Conformance, Certificate of Acceptance and Origin. Optionally, units can be environmentally tested (temperature, vibration...).

#### **Option (HS): Heat Sink**

A heat sink (HS) can be provided to allow the operation of Power Amplifiers. Please note that most power amplifiers need heat sink or appropriate heat dissipation strategy.

#### Space / Military Usage

Most of ERZIA's products are based on rad-hard technologies and can be manufactured and integrated according to MIL / ECSS or specific hi-rel standard-screening for space, aeronautics, military or specific hi-reliability usage.

#### **Customization and Extended Performances**

ERZIA can fully design or adapt one of the existing RF amplifiers designs according to your specifications. Please contact us for additional information.
